OUR MISSION

CEMEDIPP's mission is to take in hand the **wellbeing of the child** and **accompany him** whenever he encounters, due to varied developmental disorders, adaptation difficulties and challenges at school or in his social life and familial environment.

OUR CORE OBJECTIVES

- Screening, diagnosis, treatment and rehabilitation of children under 12 years of age and adolescents between 12 and 15 years who display developmental disorders or disabilities as well as sensory, motor and/or intellectual disabilities.
- Supporting families from child's birth or as soon as a difficulty or disability is suspected/diagnosed to ensure full cooperation in treatment and rehabilitation actions.
- Establishing an individualized treatment plan for the child by a qualified team of specialists and in collaboration with the family.

THE INTERVENTION AT CEMEDIPP

Including but not limited to:

- Learning, motor & intellectual challenges/disabilities
- Attention deficits and/or hyperactivity disorders (ADD / ADHD)
- Written and/or oral language disorders or delays; such as stuttering, dysphasia, dyslexia, dysgraphia, etc.
- Behavior challenges, conduct, affective and/or functional disorders.
- Difficulties at school for high ability learners
- Various neurological & psychological disorders
- Developmental delays / disorders
- Pervasive Developmental Disorders (PDD)

PROFESSIONAL EVALUATIONS & SERVICES

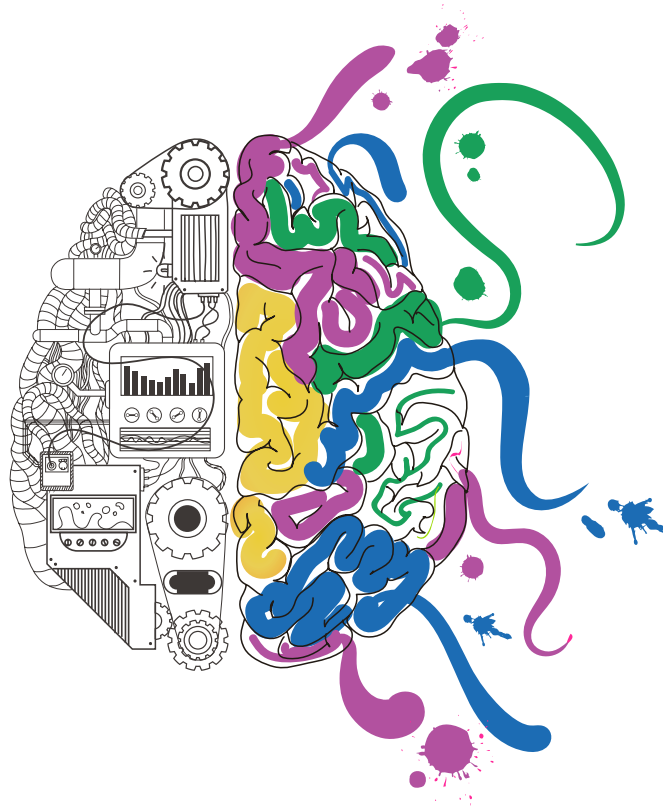

The multidisciplinary team is responsible of:

- Conducting screening, examination and evaluation
- Establishing a coherent diagnosis.
- Achieving objectives and implementing treatment plans.
- Providing care and necessary treatment.
- Ensuring and monitoring links between the center, the families and the school to enable children & adolescents to reach their full potential.
